

COMMERCIAL POOLS • WATERPARKS • RESIDENTIAL POOLS

GRAND PARADISE

Grand Paradise waterpark is located in Collins, Mississippi. It is a seven acre park with a tropical atmosphere. The park has four large slides 85 feet high and an interactive water fort for small children.

UNI WALL was used for the 860 foot long lazy river, the splash pools and the children's pools. They used 48 inch blue wall for the river and 24 inch wall for the children area. These walls were set, fittings installed and ready for concrete in less than six days with six men. The park cost \$4 million.

We furnished the pumps, filters and pipe for the job. We also did the drawings, including the hydraulics and filtration.

The park is doing extremely well. There are already plans to add a wave pool, rapid river and more slides. UNI WALL will again be used on all the projects.

Splash pools are often incorporated into the river. It is an efficient way of using the energy from the slides to help move the river.

MOSSING POOLS - TOLEDO, OHIO

This pool was built by Dave Mossing of Mossing Pools. Mossing Pools and Family Fun have been working together for 38 years. Dave is second generation. His father, Larry, started the business relationship with us in 1969.

They do an outstanding job as evidence of this pool. This pool was extremely difficult to build. It is on a severe hillside of 25 feet. Concrete walls were constructed with 15 feet of it in the ground. Tile was brought from Italy for the deck, and an unusual tile patten was used at the top of the walls.

This was entered into the APSP design awards. We wish Dave continued success and hope he brings home the gold.

Show Schedule

Fun Expo

September 27-29
Las Vegas, NV

WWA

October 25-26
Palm Springs, CA

IAAPA

November 12-16
Orlando, FL

International Pool & Spa Expo

November 28-30
Orlando, FL

Coming Issues:

WATERPARKS

- South Korea - Daechon
- Pennsylvania - Sno Cove
- Phillipines - Cebu Projects
- China - Oct Project
- Technical Achievements

FULL SPEED AHEAD...

This train engine was built by Sparkle Pools in Jane Lew, West Virginia. Sparkle started building pools in 1973. Don West, owner of Sparkle Pools, likes UNIWALL because it enables him to have a great deal of creativity in design as evidence of this project. Gray wall was used to give it a more realistic look.

This pool was built for the Marlinton Motor Inn in Pocahontas County. It was a real challenge incorporating the handicap ramp, bench seats and spa.

They did a remarkable job in keeping the shape and staying in proportion. Congratulations to Don and everyone at Sparkle Pools on a job well done.
