COMMERCIAL POOLS • WATERPARKS • RESIDENTIAL POOLS

Createk: Waterfalls...Coping... Stones...And More

Createk manufactures custom rocks, waterfalls, stone walls and even dinosaurs, bones for museums and trees for botanical gardens. It is a composite polymer suited for indoor or outdoor use. It is UV resistant and has a Class I fire retardant classification. It provides appearance and longevity of natural stone but without the weight and cost. It has been used on 5 star resorts, cruise ships, Disney, Cabellas Outlets and much more. We have used it commercially and residentially for waterfalls, coping and spa walls with great success.

UNIWALL... EVERYWHERE YOU LOOK

URABA, COLUMBIA

This project was built by American Pools of Cali, Columbia. Approximately 1,000 linear feet (300m) of Uniwall was installed.

Family Fun assisted on the project.

It is located in the banana plantation region near the Panama border. Due to the success of this project, more are being considered in the region.

SNO COVE - WATERPARK...SKI RESORT

Sno Cove is on Montage Mountain in Scranton, Pennsylvania. It will be a waterpark in the summer and ski resort in the winter. The lazy river has been completed, the interactive kiddie pool is essentially done and the wave pool is under construction. The speed slides have also been completed. Next spring, the slide pool will be built for the feature ride, The Tornado. When the project has been completed, there will be approximately 3,000 linear feet of Uniwall installed. Please keep in mind Family Fun in conjunction with CDI can assist in the design of waterparks as well as do the hydraulics, filtration and mechanicals.
